

DEEPTHI DESETTY

AI/ML ENGINEER • DEEP LEARNING • DATA SCIENCE

Email: deepthidesetty22@gmail.com | Mobile: +91-9392951537 | LinkedIn: [linkedin.com/in/deepthi99](https://www.linkedin.com/in/deepthi99) | GitHub: github.com/Deepthi006

PROFESSIONAL SUMMARY: Passionate AI/ML Engineer with expertise in Deep Learning, Computer Vision, and Natural Language Processing. Experienced in evaluating state-of-the-art AI models (RLHF), building scalable end-to-end ML pipelines, and developing computer vision solutions. Solved 150+ DSA problems on LeetCode & HackerRank with strong foundation in algorithms and cloud serverless architectures.

SKILLS SUMMARY

Languages:	Python, C, C++, Java, SQL, HTML/CSS
AI / ML & CV:	TensorFlow, PyTorch, Scikit-learn, YOLO, OpenCV, NLP, BERT, Prompt Engineering, RLHF, Model Evaluation
Data & Cloud:	Pandas, NumPy, Matplotlib, AWS (Lambda, DynamoDB, API Gateway), Docker, Git, MySQL, VS Code
Soft Skills:	Leadership, Problem Solving (150+ DSA Problems), Clear Communication, Adaptability, Accountability

WORK EXPERIENCE & INTERNSHIP

Outlier AI — *Freelance Contributor*

Nov 2025 – Jan 2026

- Designed and applied advanced prompt engineering techniques to evaluate state-of-the-art AI models, identifying limitations and contributing critical insights to improve Reinforcement Learning from Human Feedback (RLHF).
- Conducted comprehensive qualitative and quantitative assessments of model outputs across text and image tasks, evaluating instruction alignment, factual accuracy, and performance using Python, Java, and custom test cases.
- Contributed 200+ hours on scenario-based prompts (debugging, visual tasks, writing), earning \$1,200+ and maintaining a 4.5+ client rating for quality and skill.

Internselite Pvt Ltd — *C, C++ with DSA Advanced Program Intern*

Oct 2024 – Dec 2024

- Assembled cloud-native serverless modules leveraging AWS API Gateway, Lambda, and DynamoDB to support scalable and budget-friendly operations.
- Implemented and optimized core data structures and algorithms, including trees, graphs, heaps, and dynamic programming, ensuring high-performance computing solutions.
- Executed end-to-end projects applying time and space complexity analysis, leveraging STL and advanced C++ features to build efficient applications.

PROJECTS

She-Shield — *AI Safety Detection System | Python, YOLO, OpenCV, TensorFlow, Scikit-learn*

Feb 2026

- Designed a machine learning safety analytics system using Scikit-learn and Pandas to analyze crime datasets and predict high-risk locations via classification models and statistical pattern analysis.
- Integrated a YOLO-based computer vision module (TensorFlow/OpenCV) for real-time surveillance object detection to identify suspicious activities and enhance situational awareness.
- Engineered a location-aware safety pipeline combining GPS data processing, risk scoring algorithms, and automated alert triggers for real-time safety notifications and analytics visualization.

Crop Disease Prediction System | *TensorFlow, CNN, OpenCV, Python, Scikit-learn*

Jan 2025 – Apr 2025

- Developed a deep learning CNN model to classify plant leaf images and detect crop diseases at an early stage, enabling farmers to take timely preventive actions.
- Collected, cleaned, and preprocessed agricultural datasets; trained and evaluated classification models using Python and Scikit-learn to identify disease patterns with high accuracy.
- Demonstrated practical applicability in precision agriculture by supporting early disease detection, reducing potential yield loss, and promoting data-driven farming decisions.

Stock Prediction App | *LSTM, ARIMA, React.js, Django, Python*

Aug 2024 – Oct 2024

- Engineered a stock prediction system combining LSTM neural networks with ARIMA models for time-series forecasting, deployed via Django REST API and React frontend.

EDUCATION

Lovely Professional University — *B.Tech in Computer Science & Engineering*

2023 – Present

CGPA: 7.4 | Coursework: Data Structures, Algorithms, Machine Learning, Deep Learning, Operating Systems, DBMS

SR Educational Academy — *Intermediate (PCM)*

2021 – 2023

Score: 89%

TRAINING & POSITIONS OF RESPONSIBILITY

- DSA Training:** CipherSchools (Jul 2025)
 - Generative AI:** Infosys Springboard (Aug 2025)
 - ML Specialization:** Coursera / Stanford (2025)
- Class Representative:** LPU (Since Oct 2025)
 - Executive Leader NSS Unit:** LPU (Since Mar 2024)
 - 7-Day Summer Camp Leader:** CDP Certified
